TECHNOLOGYS

React
React-native
Javascript
Typescript

EDUCATION

Udemy

Clean code | *2022/04 - 2022/6*

In this course I started to understand the difference between a junior developer and a senior developer.

Henry

Full stack developer | *2021/04 - 2021/10*

In this bootcamp I improved my knowledge in order to become a Junior developer.

EXPERIENCE

Frontend developer

CTL | *2022/02 - current*

I work providing support for a discount application for P&G by working on redirectioning and applying fixes to the app. This is an outsourced job from Accenture

Mobile developer

CTL | *2022/01 - 2022/06*

I am in the development team of a mobile application for personal loans. My role in this project is that of frontend and mobile development and I also contributed partly to the backend.

Full stack developer

Academic experience | *2021/06 - 2021/7*

I was in a group of 8 people, in which we made a web page of a recipe calendar, I was in charge of the styles and functionalities part. This page allows you to create and save your weekly recipe calendars.

Full stack developer

Academic experience | *2021/04 - 2021/10*

I made a web page about dogs. It shows you a list of races, which can be filtered, reordered, queried, and can create new breeds.
